If you are looking for high-quality, custom-made bedroom furniture, look no further than our company. We specialize in bespoke wardrobes that can be made to any size and are built to fit floor to ceiling.

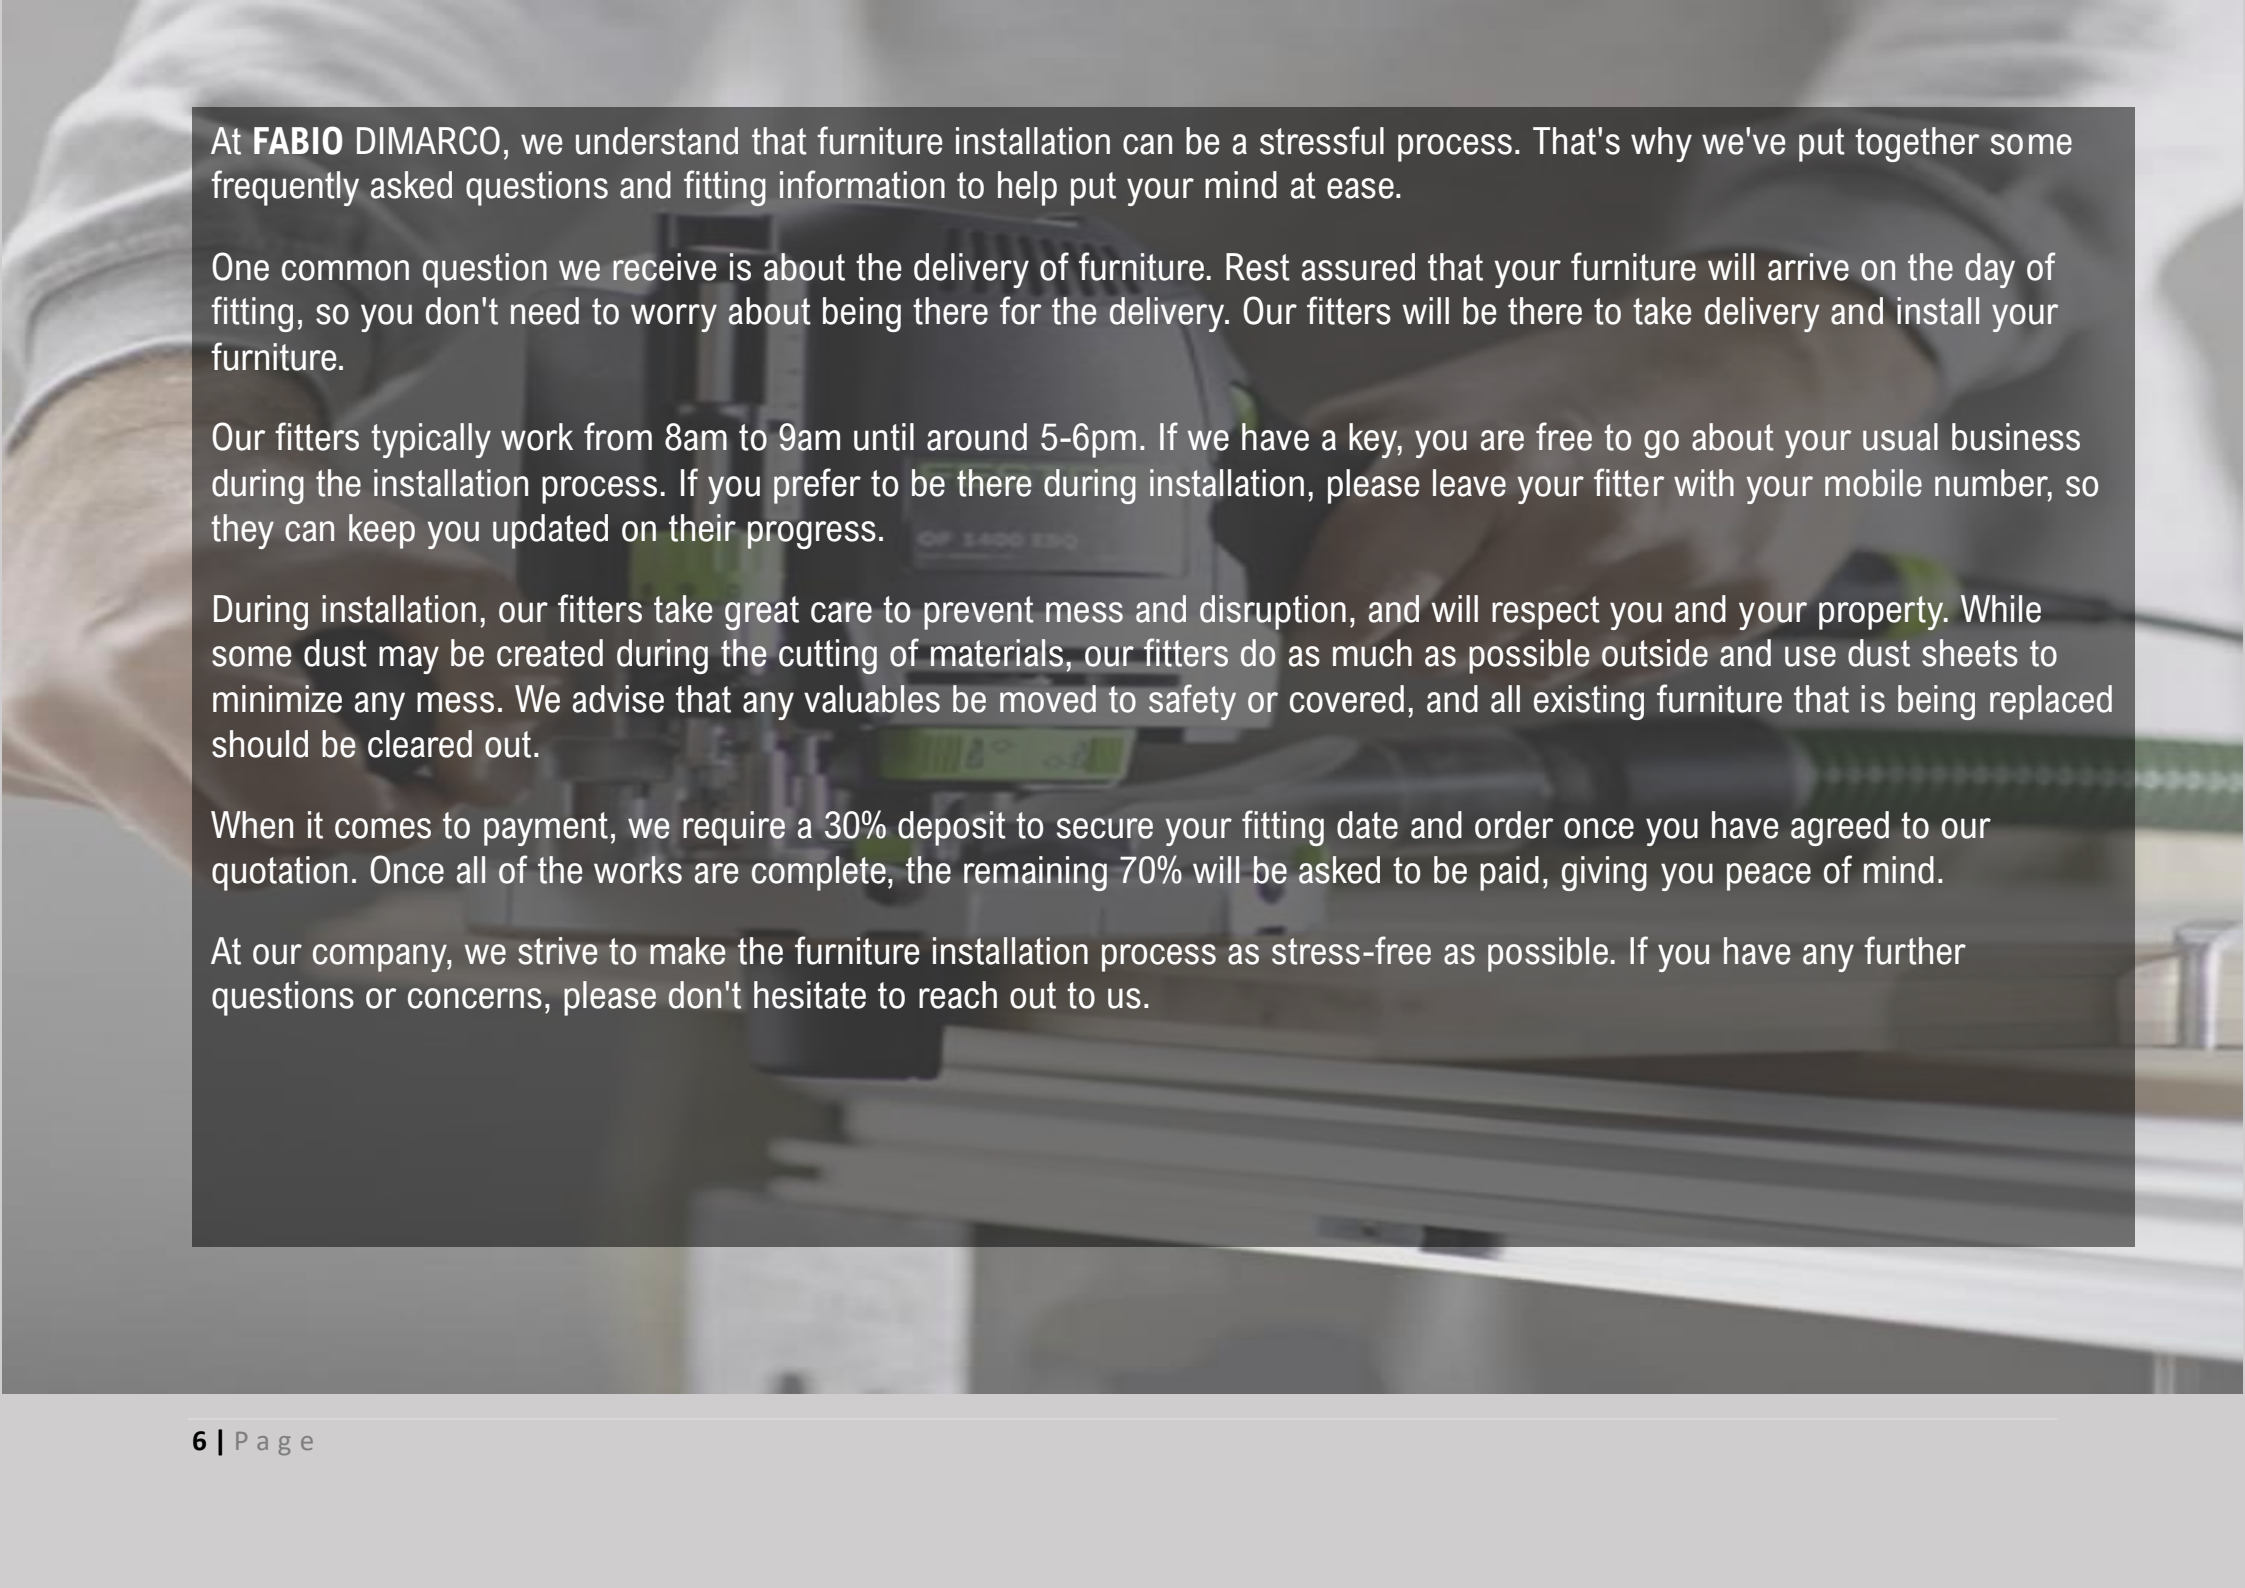

Our wardrobes are built to last, with solid 18mm bases, tops and back panels as standard. We know that drawers can often be a weak point in bedroom furniture, which is why our bedroom drawers are the best around. They are solid, rigid drawers built the same as everything else with solid bases that are pocket screwed so that you don't have to deal with collapsing drawers.

We offer a variety of colour options for our wardrobes, including carcasses that can be colour-matched or contrasted as standard. Additionally, we use soft close doors and drawers as standard, ensuring that your experience with our furniture is as seamless and enjoyable as possible.

When it comes to your bedroom, you want furniture that is not only functional but also stylish and comfortable. Our bespoke wardrobes and drawers are the perfect solution for those who want the best of both worlds. With our attention to detail and commitment to quality, you can trust that our furniture will exceed your expectations.

## HOW OUR DRAWERS ARE MADE

A person is using a circular saw to cut a piece of wood in a workshop. The saw is positioned on a workbench, and the person's hands are visible, one holding the wood steady and the other operating the saw. The background is slightly blurred, showing other workshop equipment and materials.

At **FABIO DIMARCO**, we understand that furniture installation can be a stressful process. That's why we've put together some frequently asked questions and fitting information to help put your mind at ease.

One common question we receive is about the delivery of furniture. Rest assured that your furniture will arrive on the day of fitting, so you don't need to worry about being there for the delivery. Our fitters will be there to take delivery and install your furniture.

Our fitters typically work from 8am to 9am until around 5-6pm. If we have a key, you are free to go about your usual business during the installation process. If you prefer to be there during installation, please leave your fitter with your mobile number, so they can keep you updated on their progress.

During installation, our fitters take great care to prevent mess and disruption, and will respect you and your property. While some dust may be created during the cutting of materials, our fitters do as much as possible outside and use dust sheets to minimize any mess. We advise that any valuables be moved to safety or covered, and all existing furniture that is being replaced should be cleared out.

When it comes to payment, we require a 30% deposit to secure your fitting date and order once you have agreed to our quotation. Once all of the works are complete, the remaining 70% will be asked to be paid, giving you peace of mind.

At our company, we strive to make the furniture installation process as stress-free as possible. If you have any further questions or concerns, please don't hesitate to reach out to us.
